Information sheet for the course Industrial Design I

University: Alexander Dubček University of Trenčín

Faculty: Faculty of Industrial Technologies in Púchov

Course unit code: TTN-PV-6 Course unit title: Industrial Design I

Type of course unit: optional

Planned types, learning activities and teaching methods:

Lecture: 0 Seminar: 0

Laboratory tutorial: 2 hours weekly/26 hours per semester of study; face to face

Number of credits: 2

Recommended semester: the 2nd semester in the 1st year full-time form of study

the 2nd semester in the 1st year part-time form of study

Degree of study: the 1st degree of study (Bachelor's degree)

Course prerequisites: none

Assessment methods:

creative work, test, predetermined work relating to acquisition of the determined number of credits

Learning outcomes of the course unit:

Student has acquired fundamental theoretical knowledge on industrial design from the complex or comprehensive aspect. He/she has enhanced his/her skills with the regard to investigation the design aspects and he/she is familiar with the characteristic features in relation to international context referring to design.

Course contents:

History and etymology with the reference to design aspect.

Industrial design – history and etymology.

Theory of design.

Methodology of design.

Art, science and advanced technology from the aspect of design.

Function, context and form of design.

Individual types or sorts of design

Different spheres or fields of design.

Criteria relating to design.

Design of the 20th century.

Deign of the 21st century.

Intellectual property in relation to design.

Development, progress, directions, opportunities and limits in design.
