

Course Unit Information Sheet

<b>University:</b> <i>Alexander Dubček University in Trenčín</i>	
<b>Faculty:</b> <i>Faculty of Social and Economic Relations</i>	
<b>Course unit code:</b> <i>LZP1</i>	<b>Course unit title:</b> <i>Microeconomic and Macroeconomic Theories</i>
<b>Planned types, learning activities and teaching methods:</b> <i>2/2 weekly</i>	
<b>Number of credits:</b> <i>10</i>	
<b>Recommended semester/trimester:</b> <i>1<sup>st</sup> semester</i>	
<b>Degree of study:</b> <i>III (PhD.)</i>	
<b>Course prerequisites:</b> <i>LZP1 General Economic Theory, LZP8 Microeconomics, LZP15 Macroeconomics, LZP10 Business Economy</i>	
<b>Assessment methods:</b> <i>Continuous assessment: active and creative participation of students during seminars, students must attend at least 80% of all seminar sessions, mastering and using terminology, having the subject matter knowledge. Two written examinations during the semester. Under continuous assessment, students must achieve at least 50 score points to pass. Final assessment: a written examination to test the students' understanding of the recommended reading and an oral examination to test the students' ability to apply the knowledge in line with the course unit learning outcomes. Students may earn the total score of 100 points. The grading system is following: (E) – 70 points, (D) – 75 points, (C) – 80 points, (B) – 85 points, (A) – 90 points.</i>	
<b>Learning outcomes:</b> <i>By completing the course unit, <b>students</b> will master essential theory on specific relationships and processes related to household behaviour, business sphere and national economy. The course unit <b>provides</b> students with knowledge about factors influencing consumer behaviour (households) and decision-making in conditions of perfect and imperfect competition. Moreover, students will gain knowledge related to key processes that are going on in the economy, they will understand economic behaviour of economic entities in the national economy, the role of factors influencing economic growth, money market processes and the development of employment. By completing the course unit, <b>students</b> should <b>be able</b> to analyse and evaluate microeconomic and macroeconomic processes based on the data from statistical databases. In addition, students should <b>understand</b> the essence, processes and purpose related to functioning of the microeconomic and macroeconomic sphere of the national economy.</i>
